

# JOH. ENSCHEDÉ AMSTERDAM (JEA) LAUNCHES **CLEANSHEET®**

## THE CHALLENGE

Now that we are gradually moving towards 'the new normal' and 'the socially distanced society' it is important to create a (work)space which is as safe as possible for employees and students.

## THE SOLUTION

In response to COVID-19, JEA InnovationLab has recently developed **Cleansheet® - paper with antiviral and antibacterial properties**. Cleansheet® can be used in offices, schools, care facilities and all environments where a clean (work)space is required. The range includes desk protectors and table protectors.

Cleansheet® helps to prevent the virus from spreading in the (hot-desking) workplace and on tables. The paper is equipped with a protective layer with clinically-proven antiviral, antibacterial and antifungal properties. This addition helps to limit the risk of infection.

## THE APPLICATION

The Cleansheet® desk protector and table protector are replaced immediately after use, helping to minimise the risk of contamination. The eye-catching printing highlights the instruction to maintain social distancing and general hygiene rules.

## USE

Cleansheet® provides a protective barrier between the user and desk, and thereby helps ensure a clean and safe environment at work, at schools and in healthcare. This is important now that there is more activity again in public spaces. Cleansheet®

is made of FSC paper and produced in a certified food-safe environment, and can be included in paper recycling after use.

## PERSONALISED DESIGN

Cleansheet® can be printed with your own design for quantities of 25 boxes or more.

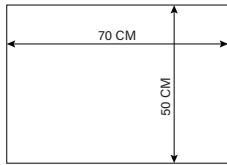

## PACKAGING AND SIZING

Cleansheet® is supplied in handy cardboard single unit packaging so that it can be easily transported and made available at work or in the classroom.

Cleansheet® is convenient to use whilst still covering the workspace and/or table effectively.

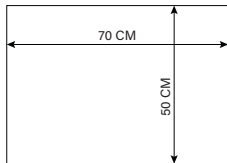

## CLEANSHEET® IS AVAILABLE IN THE FOLLOWING PRODUCT FORMS

### Desk protectors

Use	daily in offices and care institutions with (hot-desking) workplaces
Size	50 x 70 cm
